## Product Description

### AMERICAN MADE

Klenk® Serrationless Aviation Snips Smooth Cut - Non-serrated Blade Get the extra leverage and cutting power of a compound-action aviation snip with the smooth cut of a traditional pattern snip. Klenk's new smooth, non-serrated blade leaves no teeth marks in the metal. Now available in right-cut, left-cut, and straight-cut models! An Essential Tool for Architectural Metalwork Perfect for architectural metals -- copper, brass and pre-coated metals -- where a smooth cut edge is needed. Also recommended for zinc metals, which are used extensively in the building industry in roofing, flashing and weatherproofing applications.

## Seamers / Tong / Offset / Steadman without grip SOF9

[Read More](#)

**SKU:** SOF9

**Price:** \$56.35

**Categories:** [Seamers / Tong / Offset Bender](#)

## Product Description

Each casting is mated, Drilled and sanded as a set. Pinned with a solid steel pin, ground and squared then sanded again then finished with a wire wheel finish. Then misted with a light oil. Our tong are highly sought after in the sheet metal trade. Comfortable handles and good tool balance.

Care: Once a month place a drop of light oil on each side of the pin between the front and back blade. If storing your tongs for a long period lightly mist them with WD-40 or Marvel Mystery oil. After working in wet conditions do both steps above

Steadman tongs are highly sought after in the sheet metal industry due to their strength, balance, feel.

1 1/8" insertion depth 2-5/8" Wide tong x 8-3/4" long

STEADMAN TONGS are a sign of quality and tradition.  
For Sheet Metal Workers by a Sheet Metal Worker.

## Digital Protractor #PROA3

[Read More](#)

**SKU:** PROA3

**Price:** \$26.35

**Categories:** [Square DIGITAL Read out T- Bevel, Angle Finders and Manual](#)

### Product Description

Digital Protractor

Digital Protractor displays absolute and relative angle measurements in a large, easy-to-read LCD window. This display offers a hold function and can be inverted 180° for easy reading when the tool is upside down. Designed in-house by General's engineering team, this precision specialty tool is perfect for installing crown molding, cabinetry, counters, staircases, roofs, windows or flooring. It features a 6" (150mm) stainless steel pivoting protractor arm with a knurled locking nut and one-button zero calibration, which ensures accurate readings every time. Take the guesswork out of measuring, marking and reading angles on your next woodworking or home improvement project. The UltraTECH Pro-ANGLE Digital Protractor displays absolute and relative angle measurements in a large, easy-to-read LCD window, making it the perfect tool for installing crown moldings, cabinetry, counters, staircases, roofs, windows or flooring. One-button zero calibration ensures accurate readings every time. Effortlessly calculate angles by simply swinging open the 6"inch stainless steel pivoting arm, which can be locked in any position. For user convenience and comfort, the display offers a hold function and is easily inverted, or flipped, 180 degrees for reading upside down. Angles in any plane can be measured with accuracy to 0.1 degree and 0.05 degree resolution anywhere within a 0.00 to 180 degree range, making this tool useful for many applications. Professionals and technicians in the woodworking, automotive, industrial, aerospace and medical industries will find the Pro-ANGLE Digital Protractor especially helpful.

---

## Angle Finder Digital 5" #PROA1

[Read More](#)

**SKU:** PROA1

**Price:** \$22.10

**Categories:** [Square DIGITAL Read out T- Bevel, Angle Finders and Manual](#)

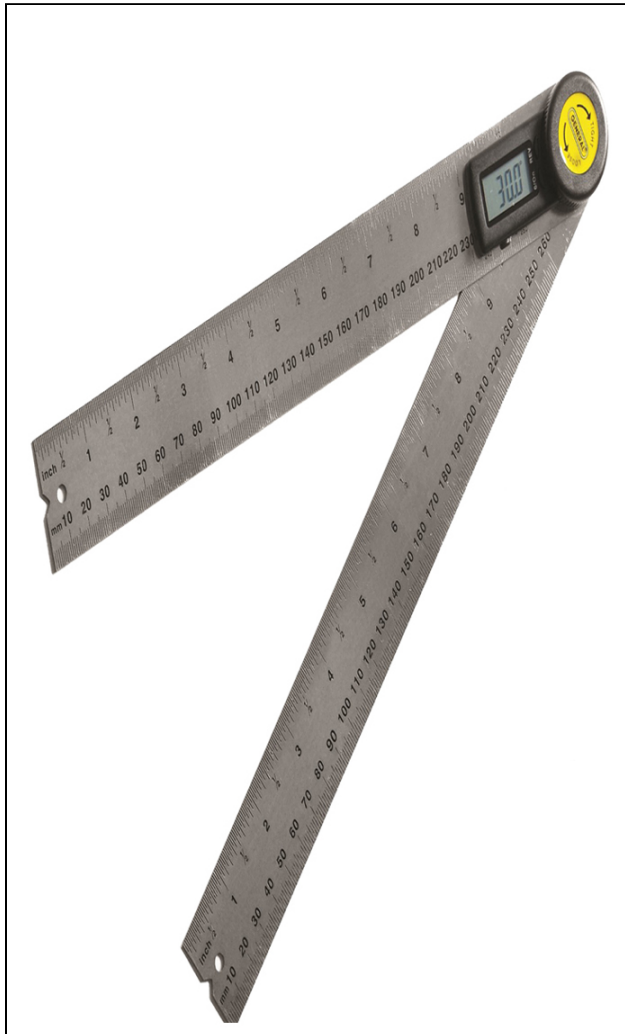

## Product Description

**Angle finder 5"** combine the ruggedness of analog rulers (standard and metric) together with the digital technology needed for complete accuracy when measuring inside, outside and reverse angles. Precise measurements prevent waste by facilitating exact miter cuts. One button activates the reverse angle function, a hold button digitally saves the measurement and the large ergonomic locking knob saves the angle manually. A big LCD readout makes measurements extremely easy to read while an innovative center check notch enables exact ruler placement marking. The Digital Angle Finder are ideal for framing, custom furniture-building, stair and patio construction, flooring, tiling basically all woodworking, carpentry and contractor needs in the shop or in the field.

### Features & Benefits :

Digital Angle Finder stainless steel angle rules make precise measurements for easy wood working. Calculates interior (inside) and exterior (outside) angles easily and accurately in seconds. Lock and reverse angle features for all types of work. Large easy to read LCD display. Hinge mechanism allows a full 360 degrees to measure inside/outside and reverse angles. Can be zeroed at any point in the swing. Overall Length for 823: 10-7/8" Width 1-3/8" Depth: 6/8"

---

**Klenk® Aviation Snips**

**+ MOST DURABLE**  
**+ EASIEST CUTTING**  
**+ MOST COMFORTABLE**

**More Comfortable:**  
 Softer grip gives you better control and is easier on your hands!

**More Efficient:**  
 Snip handles open only 4-1/2"

**Shorter Handles**  
 give you better control and easier cutting!

**Strong Blades**  
 keep cutting long after other snips give out!

**NEW!**

**Smaller Profile Tips**  
 for easier access into holes and tight spaces!

**Unique Flat Blade Design**  
 for the easiest turning snip - handling straight cuts, tight curves, angles, and circles more easily than any other aviation snip!

**Klenk® Offset Aviation Snips** MADE IN USA

- New shorter handles with softer grip on upper handle gives you ergonomic comfort, reducing hand fatigue.
- Thicker alloy steel blades increase strength and add durability.
- Unique flat blade design makes this the easiest turning snip available.
- Improved forming process produces stress-free blades that resist breakage.
- Improved heat-treating process produces blades that are tougher and more wear-resistant.
- Precision-ground tips meet together evenly to prevent fishhooks, burrs, and tearing at the end of each cut.
- Cutting capacity: 18 ga. CR - 22 ga. SS (not recommended for use on seams).

### Product Description

General's™ heavy duty steel protractors are trusted by machinists and draftsmen worldwide to deliver crucial measurements with unwavering accuracy. The 6" adjustable arm is ideal for setting bevels, taking measurements and transferring angles. Ultra-fine etched graduations read from 0 to 180 degrees in forward and reverse directions, and will not wear or rub off. Made of ground stainless steel for precision and durability.

• Square head protractor.

• Preferred choice of machinists, draftsmen and mechanics.

• Used for setting bevels, measuring and transferring angles.

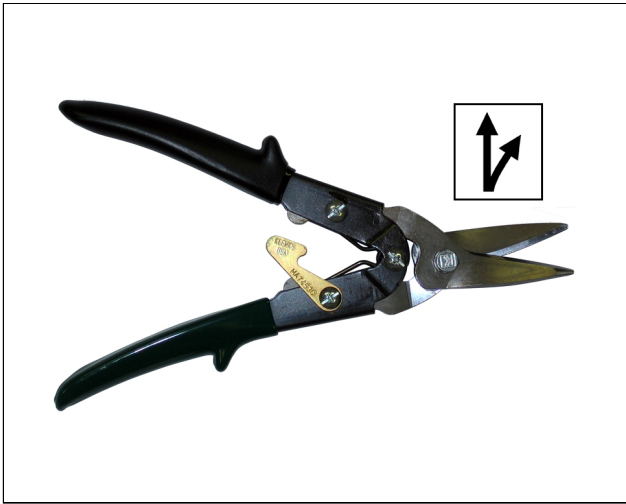

• 6" adjustable protractor arm locks into desired position with knurled thumb nut.

• Permanently etched graduations from 0 to 180 degrees and from 180 to 0 degrees.

• Head measures 3-3/8" x 2".

• Made of ground stainless steel.

## Trammel Points TP1

[Read More](#)

**SKU:** TP1

**Price:** \$29.35

**Categories:** [Trammel Points](#)

## Product Description

Trammel Points Clamps onto beam 5/8" to 1-1/2" thick of any length. Adjustable trammels accurately measure and mark distances that are too great for conventional compasses and dividers. For layouts, marking templates, and drawing large circles. 6" off-center eccentric points provide fine adjustment. Points can be replaced with pencils, ballpoint pens, crayons, or soapstone sticks for marking various materials. Trammels will accurately transfer measurements, scribe arcs and lay out circles.

---

## Trammel Points TP2

[Read More](#)

**SKU:** TP2

**Price:** \$29.64

**Categories:** [Trammel Points](#)

## Product Description

Trammel Points PRECISION ADJUSTABLE TRAMMELS Clamp opening for beam is 3/8 x 3/4. Draw large circles and measure sizable distances with the accuracy of a divider. Fine adjusting screw sets points accurately. Points are removable and may be replaced with the pencil holder. Die-cast bodies with hardened and ground 3 inches needlepoint legs. Includes package of 12 Replacement Points.

---

## Combination Square CS3 12"

---

## Notcher sheet metal Klenk

[Read More](#)

**SKU:** N2

**Price:** \$24.65

**Categories:** [Notchers Sheet Metal](#)

## Product Description

The Notcher's unique design produces a true 30° 1/2 V-shaped cut in sheet metal. The high quality alloy steel jaw cuts cleanly, resulting in a finer notch edge. The alloy steel adds durability, and the black oxide finish resists rust, providing a long useful life. Compound-action gives reliable, consistent notching over repeated use, without slippage. Our hardened pivot bolts make the tool dependable over repetitive use. Comfortable vinyl grips are soil-resistant. Notcher is 8-1/2" long, with 3/4" notch, and with a cutting capacity of up to 22 gauge CR. Made in the USA.
