Product Description

Trammel Points Clamps onto beam 5/8" to 1-1/2" thick of any length. Adjustable trammels accurately measure and mark distances that are too great for conventional compasses and dividers. For layouts, marking templates, and drawing large circles. 6" off-center eccentric points provide fine adjustment. Points can be replaced with pencils, ballpoint pens, crayons, or soapstone sticks for marking various materials. Trammels will accurately transfer measurements, scribe arcs and lay out circles.
